ORAL HYGIENE

YOUNG™

PROPHY PASTE WITH BAKING SODA

Young prophy paste powered by baking soda, a time honored ingredient with low abrasivity that's recognized for its ability to whiten, brighten, and neutralize pH.

-  **Whitens**
-  **Brightens**
-  **Low abrasivity**
-  **Neutralizes pH**

This unique formula offers superb handling for easy paste scooping & application. A white color provides an easy to rinse paste formula, that is also gluten free and contains xylitol.
